

833 BRYANT

BULLETIN | 3.23.20

Dear Neighbors,

We hope that you are all staying safe and healthy during these challenging times. As you probably have noticed, construction has continued on 833 Bryant Street. Construction of housing is exempt from 'shelter in place' orders issued by the San Francisco Department of Health and the State of California, as it is considered 'essential infrastructure.*' As the global impact of the coronavirus continues to change daily, one constant is Cahill's commitment to the health and safety of our employees and the communities we serve. We are taking precautionary measures in compliance with CDC recommendations, WHO guidelines, and Cal/OSHA rules to mitigate the spread of COVID-19.

As the situation continues to evolve at a rapid pace, we will continue to follow guidelines and directives to maintain the health and safety of our employees, partners, and communities. Please let us know if you have any questions or concerns.

Thank you,
Cahill Contractors

**San Francisco Order of the Health Office No. C19-07 states that individuals may leave their residence to provide any services or perform any work necessary to the operations and maintenance of "Essential Infrastructure," including, but not limited to, "public works construction, construction of housing (in particular affordable housing or housing for individuals experiencing homelessness)..." [Section 10c, page 6]*
